## **Bosch Diagnostics Introduces the MMD 540H Hybrid Multimeter**

The Bosch **MMD 540H Hybrid Multimeter** is a profession grade CAT III 1000V safety rated, auto ranging digital multimeter designed for use in diagnostics of electronic circuits.

The road going forward is clearly marked: hybrid vehicles are gaining in popularity and sales are skyrocketing. Virtually every vehicle manufacturer has or is working on some sort of hybrid vehicle for the market. Everyone wants to get on board this new technology that is both energy efficient and also enjoys wide popular appeal.

But with new technology comes new challenges, and in the multimeter world the stakes just got higher—because not every meter meets the required CAT III 1000v safety ratings necessary to service Hybrid vehicles. The **MMD 540H** from Bosch Diagnostics offers the best of all possible solutions—a multimeter designed for hybrid vehicles that can also handle standard vehicle electrical systems that operate on 12 volts, including applications for motorcycles, marine or small engines.

Bosch Diagnostics is leading the way with innovative and affordable solutions for today's automotive aftermarket shops. The **MMD 540H Hybrid Multimeter** is the right tool, at the right time, at the right price.

### **About Bosch Diagnostics**

The Bosch Diagnostics solution includes Underhood and Undercar diagnostic tools with in-depth software, integrated service information, expert training, technical phone support and quality Bosch parts.

Bosch Diagnostics combines the best of the former entities that comprise it: Vetronix, Beissbarth and Accu-Turn. With the excellence of these product lines combined with the value of the Bosch brand, Bosch Diagnostics is in a class by itself.

Underhood products include scan tools for Domestic, Asian and European vehicles, J2534 reprogramming devices, plus scopes, multimeters, and a vibration analyzer. Undercar products include a full range of tire changers, wheel balancers and alignment equipment
