Bosch Mobility Aftermarket Introduces New Battery Chargers for Lead Acid and Lithium Batteries

September 9, 2025

- Bosch Mobility Aftermarket expands its battery solutions with the launch of the Bosch C40-Li and C80-Li Chargers
- The new chargers feature dual 6V and 12V capability, automatic charging control, and maintenance functions
- The C80-Li offers a unique quick mode for faster charging compared to other chargers

Oakbrook Terrace, Ill. – Bosch Mobility Aftermarket today announced the launch of two new Bosch Battery Chargers, the C40-Li and C80-Li, offering compatibility with both lead acid and lithium batteries. Designed to simplify the charging process, these chargers provide advanced features such as automatic charging control, maintenance charging, and regeneration functions – ensuring batteries stay ready for use across a wide range of applications.

“Technicians and drivers alike need reliable, easy-to-use charging solutions, and Bosch is proud to deliver products that meet these essential requirements,” said Dennis Krob, senior product manager at Bosch Mobility Aftermarket. “With dual-voltage support and faster charging capabilities on the C80-Li, we’re setting a new standard in performance and convenience.”

Bosch designed the C40-Li and C80-Li Chargers to maximize efficiency with a user-friendly solution for both technicians and drivers. Both chargers feature 6V and 12V charging modes, automatic charging control, push mode functionality, and maintenance charging with regeneration. The C80-Li offers an exclusive quick mode feature that charges batteries faster than other available chargers, making it an ideal choice for users who need fast turnaround.

The chargers are suitable for use with lead acid, SLI, AGM, and lithium batteries. Each unit comes complete with a Bosch-branded bag, a hook mount for under-hood use, clamps, and an instruction manual – providing a full solution for both professional and consumer applications.

About Bosch Mobility Aftermarket

The Mobility Aftermarket division (MA) provides the aftermarket and repair shops worldwide with modern diagnostic and repair shop equipment and a wide range of spare parts – from new and exchange parts to repair solutions – for passenger cars and commercial vehicles. Its product portfolio includes products made as Bosch original equipment, products developed in-house and specifically manufactured for the aftermarket, as well as services. About 16,000 associates, as well as a global logistics network, ensure that spare parts reach customers quickly and on time. MA supplies testing and repair-shop technology, diagnostic software, service training, and information services. In addition, the division is responsible for the “Bosch Service” repair-shop franchise, one of the world’s largest independent chains of repair-shops, with some 13,000 workshops, and more than 1,000 “AutoCrew” partners in over 100 countries. In addition, with Bosch Classic, MA supports owners of classic cars with a wide range of spare parts and services.
