# Bosch ADS Software Update – July 2026

## Ver 7.5

<https://www.boschdiagnostics.com/diagnostic-systems>

Version 7.5 update includes more model year **2026** vehicle coverage and additional **ADAS** calibrations.

**New software features** for ADS X brands includes:

- Improved 10x Plus User Experience
- Improved GM DOIP Performance

Software and coverage feature details provided in these release notes.

ADS X

ADS

## Software Highlights:

### Improved Error Messaging for Secure Gateway (SGW) Unlocking

Error messages have been improved to provide more helpful information pertaining to the cause of various errors shown to the technician.

### Improved 10x Plus User Experience

We have made several improvements to the software for the new 10x Plus Diagnostic tool. We appreciate all user feedback as we work to fix all bugs reported.

### Improved GM DOIP Read and Clear DTCs

We have made several improvements related to reading and clearing codes on GM vehicles equipped with Diagnostics Over Internet Protocol (DOIP) controllers.
