

# Bosch ADS X Software Update – October, 2026

## Ver 7.7

<https://www.boschdiagnostics.com/diagnostic-systems>

Version 7.7 update continues to improve the performance and functionality of our professional diagnostic platform.

We have made further improvements to our software updating, VCI connectivity, and module scanning processes that will enhance your user experience.

v7.7 also offers several coverage additions and improvements.

Software and coverage details provided in these release notes.

## Software Highlights:

### Installing Software – Space Requirements

We have lowered the space threshold requirements on your tablet to 1GB. In prior updates, you may have encountered a “low storage” error preventing you from installing the update. With this change, this situation should be extremely rare.

Bosch recommends periodic file clearing on your tablet to reduce the likelihood of encountering low storage problems in the future.

### Improvements for Unlocking VAG SFD

We have taken steps to improve the process for unlocking VAG (Volkswagen Audi Group) SFD Vehicle Diagnostic Protected vehicles and modules. Feedback from our users has helped us to implement several improvements in this area.

### Scan Time Improvements

Multiple improvements have been made to improve the scanning time for several Honda, Toyota, Hyundai, VAG, and Nissan vehicles.

### VCI Connectivity Improvements

As we continue to receive valuable feedback from our users, we have implemented several more improvements to ensure reliable connection status between your tablet and VCI.

### Bug Fixes

The bullet-list below summarizes the most reported bugs that have been fixed in this update.

- Failing software updates – stuck at “Installing 0%” status
- Failing software updates – added protection to prevent corruption during VCI power cycles

## Coverage Additions

### Vehicles Added

| Year | Make     | Model         |
|------|----------|---------------|
| 2025 | Chrysler | Grand Caravan |
| 2026 | Chrysler | Grand Caravan |
| 2027 | Chrysler | Pacifica      |
| 2027 | Ford     | Expedition    |
| 2026 | Genesis  | GV80 Coupe    |
| 2027 | Honda    | HRV           |
| 2026 | Hyundai  | Elantra N     |
| 2026 | Hyundai  | Ioniq 5 N     |
| 2022 | Kia      | Soul EV       |
| 2023 | Kia      | Soul EV       |
| 2022 | Subaru   | BRZ           |
| 2023 | Subaru   | BRZ           |
| 2024 | Subaru   | BRZ           |
| 2025 | Subaru   | BRZ           |
| 2026 | Subaru   | BRZ           |
| 2022 | Toyota   | GR86          |
| 2023 | Toyota   | GR86          |
| 2024 | Toyota   | GR86          |
| 2025 | Toyota   | GR86          |
| 2026 | Toyota   | GR86          |

### Other Coverage Related Changes and Improvements

- MY 2016-17 Honda Accord CTA120 Radar calibrations
