

Diagnose and Repair Off-Highway Vehicles

Off-highway cable and
software upgrade kit

BOSCH

Invented for life

Diagnose, scan and repair construction equipment, agricultural vehicles, street sweepers and more

New from Bosch - 3824CBL-UPG off-highway cable and software upgrade kit for your 3824 and 3824BSC ESI[truck]

3824CBL-UPG ideal for:

- ▶ Heavy duty vehicle repair shops
- ▶ Departments of Transportation (DOT) and municipalities
- ▶ Repair facilities for construction machinery, cranes, and more
- ▶ Large construction businesses with several vehicles in use
- ▶ Agricultural vehicle dealerships - who buy and sell various brands of used agricultural equipment
- ▶ Mobile agricultural repair businesses

Coverage:

Bosch ESI[truck] Diagnostics for Off-Highway vehicles helps you navigate the complex world of construction and agricultural vehicle coverage. The software is easy to use, and its diagnostic capabilities covers vehicle makes, models, and individual systems, including:

- ▶ **Manufacturer coverage:** Caterpillar, John Deere, Kubota, Perkins, Volvo, Massey Ferguson, SISU, Deutz, Deutz-Fahr, MTU, and more
- ▶ **System coverage:** Gearbox, HVAC, engine, steering, hydraulic systems, suspension, electronic modules, antipollution, central computer and more
- ▶ **Diagnostic coverage:** Manual processes, diagnosis info, measurable values, component actuations, ECU data, parameter IDs (PIDs), calibrations and resets, system technical data, wiring diagrams, vehicle technical data and vehicle maintenance info

Upgrade Kit includes:

- ▶ **FREE** troubleshooting data included for 2019!*
- ▶ 10 different cables for connecting to major North American off-highway vehicles and machinery
- ▶ Carry case
- ▶ Introductory Off-Highway Software license:
 - Applicable if the user is currently using a 3824 or 3824BSC ESI[truck] Heavy Duty Software license
 - The introductory Off-Highway Software must be registered with Bosch and is valid for the duration of the existing ESI[truck] software license period, up to 12 months

NOTE: *Free trial ends 12/31/2019. Starting 1/1/2020 troubleshooting data module for ESI[truck] Off-Highway software will require license payment.

3824CBL-UPG and 3824-08OHW off-highway cable and software upgrade kit and software subscription is NOT compatible with 3823 or 3823BSC ESI[truck] versions

Also available:

- ▶ 3824-08OHW: 1 year software license card
 - Renews Bosch ESI[truck] Off-Highway software license after introductory period expires from purchase of 3824CBL-UPG
 - Includes all off-highway software renewals within the 1-year period, adding vehicles, tests and controls to help diagnose more vehicles
- ▶ 3824-04: Bosch ESI[truck] Multipin Adaptor Cable

3824-08OHW

3824-04
